

16<sup>th</sup>-17<sup>th</sup> June 2011

## TAPA FSR Training, Manila, Philippines

TAPA Asia held its 2011 Freight Security Requirement training Manila at the New World Hotel, Makati City on June 16<sup>th</sup> through the 17<sup>th</sup>. The training was well attended by security practitioners coming from multinational audit, buyer, supplier, logistics and security service provider companies. A good number are new TAPA members with goals set up to acquire new if not to enhance knowledge in securing the supply chain.

The two days of training were packed as lead trainer **Mark Butcher**, Security Manager of DHL Australia and TAPA MC started right off early on day 1 discussing the modules and opening forum for questions and answers. Mark was assisted by guest trainers **James Joseph Oliver**, Security Manager of Nippon Express Philippines (TAPA A certified facility) and **Milet Ismael**, Security Manager of Maxim Philippine Operating Corporation and currently serving in TAPA MC. The training mode was interactive and participative with attendees giving inputs about the security practices in their industries and how the FSR fits into hardening the security walls protecting the supply chain. The presence of TAPA FSR gurus **Masaru Imada** and **Tyn van Amelsfoort** in the class who shared their knowledge had helped provide more insights into the learning process. There were work shop exercises and the exams on day 2.

The Philippine TAPA FSR training was co-hosted by **Maxim Philippine Operating Corporation** and its major forwarder **James J. Boyle – Inland Corporation**.
